# INTRODUCTION

DTEC stands as a leading manufacturer in India, specializing in mechanical engineering hardware. The company prioritizes quality and technology, serving diverse industries. With more than 60% of sales generated from exports to Europe and North America, DTEC addresses both replacement and original equipment markets for gearboxes, pumps, and cylinders. Centralized operations facilitate efficient sealing solutions, from standard hardware to intricate profiles and large-scale industries, while consistently broadening its product offerings.

## Product Information

We provide an extensive selection of metal products utilized across various sectors, including automotive, construction, and fabrication. To guarantee complete precision, we use high-quality materials in our manufacturing process. All products undergo thorough testing for accuracy and performance before delivery. Our product lineup features springs, drills, inserts, pins, injector pins, and circlips.

## Our Policy

As a top manufacturer and supplier, we excel in fulfilling client needs with exceptional quality and prompt delivery. Our products are crafted from the finest raw materials and advanced manufacturing techniques, ensuring optimal performance in both standard and extreme conditions. We also strive for continuous enhancement of our product quality to align with contemporary market trends.

## Quality Control

We implement strict quality control measures to guarantee premium products. Our quality assurance begins with sourcing raw materials and continues until the consignment is delivered. Each product undergoes thorough testing by our in-house quality control team, which oversees the entire production process to ensure compliance with company standards.

# INDSUTRIAL SPRINGS

**COMPRESSION SPRINGS**

**WAVE SPRINGS**

**CONICAL COMPR. SPRING**

**VIBRATOR SPRINGS**

**COMPRESSION SPRINGS**

**STRIP SPRINGS**

**DIE SPRINGS**

**TORSION SPRINGS**

**EXTENSION SPRINGS**

# DRILLING TOOL

## INSERT

TURNING INSERTS

MILLING INSERTS

THREADING INSERTS
